Thanks Max –

Good news. It's clear to me that there is nothing left to look into here. Thanks for your help.
Eric and Deldi, if you have any further questions please direct them to me, thanks.

Subject: FW: Certified abatement firm

Doug,

Janus Corporation was certified in 2010 and recertified in 2015.

Cardinal Environmental was certified in 2010 and allowed their certification to expire in May 2015.

By that point the job at Carver Elementary was supposed to be finished.

So...both firms involved in the lead-based paint abatement work at Carver Elementary were certified and both had individuals who were trained and certified to conduct the work.

And, as noted in our discussion, the specs for the contract with the school district required that the contractor follow the federal lead-based paint requirements.

Aster,
Can you tell me if the following firm is certified to perform lead-based paint abatement work:
Cardinal Environmental Consultants
2691 Dow Avenue
Tustin, CA 92780

Thanks,

Max
